 If Yes, brief description: \_\_\_\_\_.

Issues Discussed  101  112  102  103  Others

(For each of the checked box(es) above, please describe below the issue and detailed description of the discussion)

Claim(s) discussed: NONE.

Identification of prior art discussed: NONE.

**Substance of Interview**

(For each issue discussed, provide a detailed description and indicate if agreement was reached. Some topics may include: identification or clarification of a reference or a portion thereof, claim interpretation, proposed amendments, arguments of any applied references etc...)

On 10/7/11, the examiner contacted applicant's representative to discuss a proposed examiner's amendment to the specification to correct a typographical error. The examiner pointed to the specification amendment filed on 6/29/07 to column 11, lines 16-27 of the patent 5,935,832 (see p. 6, bottom to p. 7, top of the 6/29/07 specification amendment). The examiner noted that "5" was omitted for H2O in the specification amendment relative to the patent. The examiner requested authorization to insert "5" to correspond to the patent disclosure. On 10/13/11, applicant's representative authorized the specification amendment, noting that the omission of "5" was an inadvertent typographical error where the intent was to subscript the "2" in H2O without deleting the "5".

**Applicant recordation instructions:** It is not necessary for applicant to provide a separate record of the substance of interview.

**Examiner recordation instructions:** Examiners must summarize the substance of any interview of record. A complete and proper recordation of the substance of an interview should include the items listed in MPEP 713.04 for complete and proper recordation including the identification of the general thrust of each argument or issue discussed, a general indication of any other pertinent matters discussed regarding patentability and the general results or outcome of the interview, to include an indicator as to whether or not agreement was reached on the issues raised.
